# PEROx 1000 Air Purifier

The **PEROx 1000** air purifier is a powerful tool at fire and flood restoration projects, mold abatement, and control of any type of VOCs, odor and dangerous bio-contaminants. This portable unit can safely operate in occupied areas and control odors during the restoration projects and the final cleanup. PEROx purifiers generate Hydro-Peroxides, eco-friendly oxidizer plasma created from oxygen and humidity. By rapidly oxidizing contaminants, PEROx units will purify the air passing through and also sanitize hard surfaces in the area being treated.
