

# PEROX 1200 Module

## Air Purifier Module with IO Technology

### ORDERING INFO

- Perox 1200 Module (115 VAC)
- OmniAire 1200PAC
- 2" Pleated MERV 11
- 5" Perox Replacement Cell
- 9" Perox Replacement Cell

### PART NUMBER

- OAHP1200
- OAI200PACM
- OFFP1616
- EHPG-2
- EHPG-3

Above: Perox 1200 Module.  
Right: OmniAire 1200PAC with Perox 1200 Module.

CONFORMS TO UL STD 507  
CERTIFIED TO CAN/CSA STD  
C22.2 NO. 113-M1984

The Perox air purifier module utilized IO (Ionic Oxidization) oxidizing processes to effectively destroy a wide range of harmful pathogens such as MRSA & SARS viruses, strong odors, VOCs and other bio-contaminants. The Perox air modules can safely and effectively sanitize the air and surrounding hard surfaces in critical care environments such as hospitals, labs and nursing homes. The Perox 1200 air purifier module attaches directly to the exhaust end of the OmniAire 1200PAC portable HEPA air cleaner. This module offers low level output for small and medium sized occupied rooms and high output for sanitizing hospital rooms before and after occupancy.

### Perox 1200 Module

<b>Airflow*</b>	200-1100 CFM
<b>Power Requirements</b>	115VAC/60 Hz/0.4 Amp
<b>Motor</b>	motorized impeller with thermal overload
<b>Controls</b>	ON/OFF/Timer switch; hour meter; 0/12 hour timer; LOW/MED/HIGH Output selector Switch
<b>Filtration</b>	MERV 11 pleated filter
<b>IO Generator(s)</b>	(1) 5" ionic oxidation generator; (1) 9" ionic oxidation generator
<b>Housing</b>	aircraft grade aluminum with powder coating
<b>Size/Weight</b>	19"W x 8"H x 22"L; 24 lbs.

\*Airflows based on blower manufacturer curves. Different filters may cause the flow to vary.
